Oregon Fruits and Nuts – Preliminary Estimates

Preliminary estimates show Oregon production of apples, sweet and tart cherries, grapes, hazelnuts, cranberries, and prunes and plums up in 2009, but pears down. Estimates were made from data compiled from year-end grower, packer, and processor surveys. Final 2009 fruit and nut figures will be released on July 7, 2010 after additional surveys are conducted in May and June. Generally, weather conditions were favorable for 2009 Oregon fruits and nuts. Many growing areas throughout the State experienced ideal growing conditions. Oregon sweet cherries and hazelnuts had big production increases from 2008.

Fruits and nuts: Production and value, Oregon and United States, 2008-2009

Crop	Total production		Utilized production		Price		Value of utilized production
